The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following port s, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Governmont, of business, and of social life especially in China. She has no postal system, and her only means now of commuuicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Eurepe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtues are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined, but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

THE GRAND WIND-UP IN BOSTON.

Boston is about to give out the hymn; let the rest of mankind handle their psalm-books. Boston is about to raise the tune; let "frogpond" clap its hands, and Bunker hill be joyful altogether. Boston is about to lead in prayer; let the gentiles draw near, pull off their hats, and listen to the most eloquent petition that was ever addressed to a human audience. Boston has proclaimed a great National Peace Jubilee, "to be held in the city of Boston, June 15th, 16th and 17th of the present *Anno Domini*, to commemorate the restoration of peace throughout the land. Boston is arranging a grand orchestra of one thousand musicians, the first to sing national airs and hymns of peace, and the last to swell the aforesaid national airs and hymns to cosmical dimensions. Boston is erecting an immense coliseum, capable of accommodating over fifty thousand persons, for the occasion, to be magnificently decorated with emblems expressive of Boston notions, sentiments, ideas and emotions. Boston invites the rest of mankind to attend and participate in its enjoyments, at the ruinously low figures of one hundred dollars the season ticket, admitting three persons, or thirty-three dollars, thirty-three cents and a vulgar fraction for each individual. Boston is about to do the thing in style; but like the thrifty consort of the renowned Gilpin, while she is bent on pleasure, she retains her frugal disposition, and intends to realize a profit on her anthems and thanksgivings.

Boston rejoiced greatly over the war. She led the timbrels, and headed the dance which circled around the caldron when the poisonous mixture which made men bloodthirsty was preparing. Of all the noxious ingredients that entered into the compound, hers was the most deadly. Although she did not manifest superior alacrity in sending her sons to the conflict, she sang the war song, danced the war dance, and screamed the war whoop with a vigor and persistency that left nothing to be desired. Her clergy breathed forth threatenings and slaughter from the pulpit. Her learned pundits perambulated the land, blowing the war trumpet from the platforms of lecture halls; making merchandize of their belligerent sentinels, at the price of fifty cents for the admission. Her senators and representatives took the lead in every measure which served to make war inevitable, and to foster and intensify the evil passions and cruel hatreds which war is calculated to awaken.

Boston has attained her ends, and Boston is satisfied. She did nothing to promote the return of peace; she is doing what lies in her power to make the people only formal. The country is only formally at peace, not actually. It is the peace of exhaustion, not of consent, the badges of which are the privations of right, political constraint and military despotism. But it is a peace that is after the heart of Boston, and therefore Boston proposes to celebrate it with songs and thanksgivings; with the "greatest feast of sublime and inspiring harmony that has ever been heard in any part of the world." As Boston was inspired with an ardent love of the beauties of war, so now Boston is inspired with an ardent love of the beauties of peace. She discovers that all mankind are brethren. She wonders how they could have done otherwise than love each other. She is willing to embrace the survivors of those whom she sent forth her bands to destroy, to admit to share in her rejoicings—provided they pay the regular fees for admission—those whom she labored to impoverish; and to show the whole world how little malice she had against those whose destruction she sought to accomplish. Magnanimous Boston, who takes the lead in celebrating the close of the temple of Janus when it was no longer in their power to keep it open, and who, finding war times no longer marketable, sets her organ to a peace melody, grinds away with the air of a composer, and passes around the hat with the confidence of a benefactor.

There is no objection to the musicians of Boston assembling together and making all the harmonious uproar of which they and all the machinery they are able to press into the service are capable. There is no objection to putting as high a price as they please upon their performances, and making out of them all the profit of which the thing is susceptible. But a celebration such as is contemplated, upon the predicate adopted—a grand national festival on the restoration of peace throughout the land—and that, of all places in the world, in Boston, is, beyond measure, impudent and insolent. —*St. Louis Republican.*

FEMALE SOCIETY.—What makes those men who associate habitually with women superior to others? What makes that woman who is accustomed to and at ease in the society of men, superior to her sex in general? Solely because they are in the habit of free graceful, continued conversations with the other sex. Women in this way lose their frivolity, their faculties awaken; their delicacies and peculiarities unfold all their beauty and captivation in the spirit of intellectual rivalry. And the men lose their pedantic, rude, declamatory or sullen manner. The coin of the understanding and the heart is changed continually. The asperities are rubbed off, their better materials pollished and brightened, and their richness, like fine gold, is wrought into finer workmanship by the fingers of woman than ever could by those of men. The iron and steel of their character are hidden, like the harness and armour of the giant, by studs and knots of gold and precious stones, when they are not wanted in actual warfare.

ONE HUNDRED YEARS AGO.—One hundred and ten years ago, there was not a single white man in Ohio, Kentucky, Indiana or Illinois. Then what is now the most flourishing part of America was as little known as the country around the mountains of the moon. It was not until 1767 that Boone left his home in North Carolina to become the first settler of Kentucky. The first pioneers of Ohio did not settle until twenty years after this time. A hundred years ago Canada belonged to France, and the whole population did not exceed a million and a half of people. A hundred years ago, the great Frederick of Prussia was performing those great exploits which have made him immortal in military annals, and with his little monarchy was sustaining a single handed contest with Russia, Austria and France, the three great powers of Europe combined. A hundred years ago, Napoleon was not born, and Washington was a modest Virginia colonel, and the great events in the history of the two worlds, in which these great but dissimilar men took leading parts, were then scarcely foreshadowed. A hundred years ago, the United States were the most loyal part of the British empire, and on the political horizon no speck indicated the struggle which within a score of years thereafter established the great republic of the world. A hundred years ago, there were but four newspapers in America. Steam engines had not been imagined, and railroads and telegraphs had not entered into the remotest conception of man. When we come to look back at it through the vista of history, we find that to the century passed has been allotted more important events, in their bearing upon the hapiness of the world, than almost any other which has elapsed since the creation.

THE gentleman at church is known by the following marks:

1. Comes in good season, so asneither to interrupt the pastor nor congregation by a late arrival.

2. Does not stop upon the steps or in the portico, either to gape at the ladies, salute friends or display his colloquial powers.

3. Opens and shuts the door gently and walks deliberately and lightly up the aisle or gallery stairs, and gets his seat as quietly, and making as few people remove as posible.

4. Takes his place either in the back part of the seat, or steps out into the aisle when any one wishes to pass in, and never thinks of such a thing as making people crowd past him while keeping his place in his seat.

5. Is always attentive to strangers, and gives up his seat to such; seeking another for himself.

6. Never thinks of filling a house of God with tobacco spittle, or annoying those who sit near him by chewing that nauseous weed in Church.

7. Never, unless in case of illness, gets up or goes out during time of service.—But if necessity compel him to do so, goes so quietly that his very manner is an apology for the act.

8. Does not engage in conversation before the service.

9. Does not whisper, nor laugh, or eat fruit in the house of God, or lounge in that holy place.

11. Does not rush out of the church like a tramping horse the moment the benediction is pronounced, but retires slowly in a noiseless, quiet manner.

12. Does all he can by precept and example, to promote decorum in others; and is ever ready to lend his aid to discountenance all indecorum in the house of God.

AN AWFUL STORY.—"There was once an awful little girl who had an awful way of saying 'awful' to everything. She lived in an awful house, in an awful street, in an awful village, which was in an awful place. She went to an awful school, where she had an awful teacher, who gave her awful lessons out of awful books. Every day she was so awful hungry that she ate an awful amount of food, so that she looked awful healthy. Her hat was so awful small and her feet so awful large. She went to an awful church, and her minister was an awful preacher. When she took an awful walk she climbed awful hills, and when she got awful tired she sat down under an awful tree to rest herself. In summer she found the weather awful hot, and in winter awful cold. When it didn't rain, there was an awful drought, and when the awful drought was over, there was an awful rain. So that this awful girl was all the time in an awful state, and if she don't get over saying 'awful' about everything I am afraid she will, by and by, come to an awful end."

I OWE my success in life to one single fact: That at the age of twenty-seven I commenced and continued four years the process of daily reading and speaking upon some historical and scientific book. These off hand efforts where made sometimes in a corn field, sometimes in a forest, and not unfrequently in some distant barn, with the horse and ox for my auditors. It is to this early practice, in the art of all arts, that I am indebted for the primary and leading impulses that stimulated me forward, shaped and modelled my destiny. Improve, then, young gentleman, the superior advantages you here enjoy. Let not a day pass without exercising your powers of speech. Cæsar controlled men by captivating their affections and swaying their passions. The influence of the one perished with the other. That of the other continues to this day.—*Henry Clay.*

Narrow-minded men who have not a thought beyond the sphere of their own outlook, remind one of the Hindoo maxim: "the snail sees nothing but its own shell, and thinks it the grandest palace in the universe."

LIVING IN PEACE.—Mr. Simeon of Cambridge, having met with injurious treatment made the following memorandum: Perhaps I ought to take some notice of it; but my rule is, never to hear, or see, or know, what, if heard, or seen, or know, would call for animadversion from me. Hence it is that I dwell in peace in the midst of lions. To all the accusations that were brought against him, our Lord made no reply; "Insomuch that the governor marvelled greatly." I delight in that record; and, God helping me, it is the labor of my life so to act, that on my account also the governor or spectator may marvel greatly. My experience all this day has been, and I hope it will yet continue to be a confirmation of that word, "Thou wilt hide me in the secret of thy presence from the strife of tongues." Insult an angel before the throne, and what would he care about it? Just such will be my feelings, whilst I am hid in the secret of my Redeemer's presence.

THE LAST SPIKE.—So much anxiety has been manifested as to whether the "golden spike" was permitted to remain where it was driven in the last Pacific railroad tie, subject to any lawless depredator who might be about, that we print the following to give relief:

"That silver bound tie and golden spike! Oh, the prose of it, the plain prose! The poetry of the operation, the tie and the spike have all vanished. Ceremony is one thing and business another. After the silver bound tie was laid and the golden spike driven in the Pacific railroad—after they 'had got done praying,' and before east and west had fixed to their satisfaction what these emblematic articles represented, the tie and the spikes (there were two of them) were quietly taken up and deposited with Nevada's silver hammer in a car and sent to San Francisco, while a common wooden tie was substituted, and the last rail secured to it by a common iron spike."
—*Western Correspondence.*

THE *Baltimore Gazette* advocates the establishment of gold banks, now that gold contracts are made legal by acts of Congress. The *Gazette* says:

By the establishment of a gold bank and the facilitating of the exchange of gold checks, we would create an additional gold currency which would be of great use in business. In case of sudden panics, by payment of a small discount for thirty or sixty days, merchants, who were suddenly called on for coin, could raise the gold and save probably five or six per cent or even more. A large amount of gold which is now in small sums would be massed together and made available, and by the use of checks there would be an interchange of what would be in reality coin notes, ten times as large as the actual amount of gold in bank. * * * It would facilitate and extend dealings in gold, and pave the way to resumption of specie payments. Is not a gold bank a thing worth thinking of?

DULL times, these. Business men are complaining bitterly, and many of them see little hope in the immediate future. The only thing to be done under the circumstances is for business men to keep up their spirits, and at the same time keep themselves prominently before the public. To do this, they should select the best advertising medium through which to announce their places of business and what they have to dispose. Amongst the best, if not the very best, is the BEDFORD GAZETTE, which goes everywhere, and is read by thousands who read no other paper.

Adversity exasperates fools, dejects cowards, draws out the faculties of the wise and ingenious, puts the modest to the necessity of trying their skill, awes the opulent, and makes the idle industrious. Much may be said in favor of adversity; but the worst of it is, it has no friends.

Five business houses on Commerce street, Mobile, were destroyed by fire Tuesday night. Colonel L. T. Woodruff, President of the Board of Trade, lost his life, and two others were seriously hurt by falling walls.

Impure thoughts are the seeds of sin. If dropped into the soil of the mind and heart, they should be cast out immediately; otherwise, they will germinate, spring up, and bear the fruit of sinful words and acts.

A jury of inquest has acquitted the United States soldier charged with beating his wife to death, near Fortress Monroe, deciding that her death was caused by the bursting of a blood vessel.

Deal gently with those who stray. Draw back by love and persuasion. A kiss is worth a thousand kicks. A kind word is more valuable to the lost than a mine of gold.

A Soldier with a bullet in his breast—not his back—received at Bull Run, has been removed from an Indiana post office, to make place for a rich Radical.

POLYGAMY is said to be fast dying out in the Sultan's dominions. The Turk of the period finds that the expense of one wife is as much as he can support.

The Presbyterian Church South is at present engaged in discussing a plan for the evangelization of the blacks.

Two banks in New York were broken into Tuesday night, but the burglars left without being able to make a raise.

HOUSE AND FARM.

Feeding Young Chickens.—Considering the rough food employed in rearing young chickens and turkeys, it seems amazing that people succeed half so well as they do. Young chickens and tender turkeys require soft and rich food for the first two weeks, just as a new-born infant needs milk. It would be just as consistent to gorge the delicate stomach of an infant with popped corn and candy as to attempt to rear young chickens and turkeys on coarse and raw meal and small kernals of grain. And yet such feed is often employed for that purpose where large numbers of fowls are produced. But the losses of young chickens would be much less were soft food employed until the young birds have acquired sufficient strength to digest coarse and hard food. In many instances more than half the turkeys that are hatched are so seriously injured by improper food that they die before they are one week old. Indeed, many people will not attempt to rear turkeys, simply because the young birds will die, in spite of all their efforts to raise them. The first food that young birds of any kind should receive is boiled eggs. After an egg is boiled, cut the shell in two equal parts and place them where the young chickens can have access to the soft and rich food. After they have eaten the egg, a mush made of equal parts of Indian meal and wheat flour should constitute their chief food. If milk can be obtained, let it be made into curd. Great care should be taken, in the preparation of chicken feed, to exclude everything that contains salt, only a small quantity will surely kill young chickens and turkeys.—*Maine Farmer.*

Hard Work and Hard Driving.—Horses were designed as beasts of burden, to relieve mankind of fatiguing drudgery. It does not hurt them to work hard, if they are treated kindly. It is not the hard drawing and ponderous loads that wear out horses and make them poor, baulky, worthless, it is the hard driving, the worry by rough inhuman, drivers, that uses up more horse flesh, fat, and muscle than all the labor the team performs.

Consider the ponderous loads that teams are required to cart every day, they appear to grow fatter and stronger every year. They are treated kindly. On the other hand, other horses that do not perform half the labor soon grow poor and give out, and the next thing we hear of them is, they die with the harness on. Hard work does not kill them; but the worrying, fretting and abuse did the job.

Horses will do all the mowing and reaping on a large farm, thrash the grain, pitch the hay, turn the grindstone, saw the wood, and perform almost all the heavy labor that farmers have been accustomed to do, and grow fat, if they are not worried and jerked and kicked about as if they were a living football.

Keeping Hams in Warm Weather.—Make bags of unbleached cotton cloth put the hams in, and then put a layer of fine soft hay all around them, so as to make a stratum of hay between the cloth and the hams. If merely bagged the flies will thrust their ovipositors through the cloth and sting the meat; but the interposed hay keeps them off. It is a common practice to whitewash the bags, but this is not so neat, and the bags cannot be well used again. Another mode is to bury them in oats or some other grain but they are more apt to become injured from want of ventilation. Charcoal dust keeps the hams well, but it is black and disagreeable, and hard to get off. Whichever mode is adopted, it is of vital importance that the work is done early in the spring, before the flies are stirring. *Country Gentleman.*

A farmer correspondent, speaking of the difficulty of swine driving, says it is "as whistling, after you know how," to wit: to the end of a stout cord, tie an ear of corn; drop it in front of the pig within five or six inches from his nose, and commence draging it slowly away, in the direction you wish him to propel. If his pigship shows evidence of blited hopes, or arberration of mind, from the singular conduct of the corn, seduce him into the belief that it is "all right," by letting him have a brief nibble at it, and then resuming the line of march. In this (says our informant) the most obdurate pig may be decoyed any reasonable distance. He says he has deduced this from the fact that "men require motives for action—and why not pigs?"

Gaps in Chickens.—When you find them showing symptoms of this malady, you will find it a most simple and successful remedy to mix with one quart of corn meal one table spoonful of black mustard seed, and feed them. They will be healthy, have a vigorous and lively growth. I speak from three years experienee, and without the loss of one chicken.

The first milk of a cow after calving is purgative, and might have a bad effect on hogs, but we should think it would not be very dangerous unless fed regularly day after day. It is used as human food in Europe without evil effects.

To remove writing ink from paper without scratching, apply with a camel's hair pencil a solution of two drachms of muriate of tin in four drachms of water; after the writing has disappeared, pass the paper through water and dry.

FOR THE CAMPAIGN!

RALLY IN YOUR MIGHT!

Read, Think and Act!

Our appeal is to the intelligent, the candid and the independent. We ask only that people shall *understand* the issues before them, and that, understanding them, they reflect upon their duty in the premises and then discharge what they believe to be that duty when they come to cast their ballots. In order that the questions to be voted upon at the coming election, may be fairly and fully presented to the public, the BEDFORD GAZETTE will be furnished for the campaign, at the following low rates:

One copy	$0.50
Three copies	1.20
Five copies	1.75
Ten copies	3.00
Twenty copies	5.00

In all cases the cash must accompany the order. We respectfully ask the active men of our party to get up clubs for the campaign at every post-office in the county. In no other way can the good cause be more effectively supported than by the circulation of Democratic newspapers. It ought to be an easy matter to raise a club of twenty at any post office. Address MEYERS & MENGEL, Bedford, Pa.

THE TICKET.

We place at our mast-head the ticket nominated at the Democratic Primary Election held on the 29th ult., and call on all true Democrats, as well as honest and discriminating men hitherto opposed to us in politics, to give it their support. The candidates were fairly nominated, after a full and thorough canvass, and therefore, have a perfect claim upon the support of every man who calls himself a Democrat or who professes to act in opposition to the radicals.

For Prothonotary, JOHN P. REED, ESQ., is a candidate of whom the Democracy may well be proud. We doubt whether any man in the county is better qualified to discharge the duties of this important office than Mr. Reed. He served a term in the same office before and during his former incumbency gave entire satisfaction to bench, bar and people. He is an affable, courteous, liberal-minded, christian gentleman, a man beloved by his neighbors and respected by all who know him. We predict his election by an overwhelming majority.

For Sheriff, WM. KEYSER, ESQ., merits the esteem and cordial support of the party. He is an intelligent, moral, upright man, has always been a zealous, hard-working Democrat, and will make a most excellent officer. Mr. Keyser is a self-made man, one who has worked his way from poverty and obscurity, beginning life as a poor farmer's boy. He deserves great credit for his energy, courage and probity, which, we doubt not, will be fully appreciated when his fellow citizens come to make choice of a sheriff.

Mr. Keyser, when a Senatorial conferee on a certain occasion, was offered a thousand dollars to vote for a certain candidate, but spurned the bribe. We refer to this incident in his life to show the sterling character of the man.—Such a candidate cannot fail to be successful by a large majority.

For Treasurer, HUGH MOORE, ESQ., was nominated by a very flattering vote. He was once Sheriff of the county, and has many friends among the "Republicans" as well as Democrats. He is an honest and capable man and will be elected by a majority that will astonish some people.

For Commissioner, GEORGE ELDER, ESQ., for Poor Director, ADAM K. PENCYL, for Auditor, OWEN McGIRR, and for Coroner, J. B. BUTTS, are first rate nominations. No better men could have been selected. They are of the bone and sinew of the party and the county.

And now, with this excellent ticket in nomination, we ask the Democracy to lay aside personal feelings and individual preferences, to forget the struggle in which they engaged at the Primary Election, to let the dead past bury its dead, and look to the future with one undivided purpose, with a united determination to elect the candidates by a larger majority than any that has been given by the county for years. Let us be men, not mice.

ABOUT these times keep a sharp look-out for disorganizers. The *people* made the nominations at the head of this paper. The will of the people must be obeyed.

STAND FROM UNDER!

The Democratic party is getting ready for a mighty wrestle with the giant corruptions that tug at the vitals of the nation. Radicalism, with all its monstrous fallacies, its grinding exactions, its horrible despotism, is to be overthrown. To this end the Democracy are rallying as one man; to this end we are to be a united party, frowning upon every effort to disorganize and closing our ranks in solid phalanx to march against the common foe.

Wo be to the man who would bring discord where unanimity and concord should and must prevail! "If thine eye offend thee, pluck it out!" If there be traitors in the camp, if there be men who gained the confidence of Democrats only to betray them, if there be those who violate their pledged word, let their treason be proclaimed from the house-tops, let all men know them and beware of them. Verily, their places shall know them no more forever!"

There is no middle ground. He that is not for us is against us. He that gives aid and comfort to the enemy, commits the overt act which places him beyond the pale of the party. He is *felo de se:* he has cut his own political throat and those who approve the act are accessory to his self-murder.

We are led to these reflections by the muttering and grumbling of those discontented spirits who are never satisfied with party nominations. For years their complaints found a subject for their querulous tongues in what they styled the "Borough Clique." They howled and raged until their demands for the "Crawford County System" were complied with, and now, after the very first trial of the system they clamored for, they murmur and fret as much as ever. Nothing but office can satisfy such men. They care nothing for principle. It is only the spoils they are after.

Stand from under, ye growlers and grumblers! The Democracy cannot wait to listen to your tales of wo. We have other work to perform. We are tearing down the temple of Dagon erected by the radicals, and if you are buried beneath the rubbish it will be because you stand on dangerous and forbidden ground. Stand from under! If you will not help us, get out of the way or expect to be crushed!

NEGROES IN OFFICE.

President Grant has appointed a number of negroes to fill important offices, among others a Philadelphia African named Ebenezer D. Bassett as Minister to Hayti. Secretary Boutwell has appointed several blacks to clerkships in the Treasury Department, in the room of white men who had served honorably in the federal army, removed. These things are done in order to hold the "colored" vote in the South, as the field-hands in the kingdom of Reconstruction are getting tired of the deception of the carpet-baggers and are fast ranging themselves on the side of their former masters. But as the appointment of every negro, disappoints at least half a-dozen white expectants, it is difficult to see how the administration will gain voters by this policy. It serves to show, however, to what miserable shifts men are compelled to resort, who dare not rely on the justice of their cause and the good sense of the people. Had the President adopted a liberal and generous policy toward the Southern people, had he withdrawn the mailed hand of military rule and permitted the civil law to have its course, had he assured the people of the "loyal" states that they should be protected in their right to regulate the suffrage question for themselves, instead of asking them to surrender that right, and had he selected his office-holders from among the upright and worthy members of his party, he could have trusted to the intelligence and patriotism of his countrymen to sustain him in every emergency. But he chose to do otherwise, and now he is forced to temporize and make terms with all sorts of dirty tricksters and cannot even obtain the support of the negroes without paying for it by appointments to office. Verily, how are the mighty fallen!

DEMOCRATS should growl and grumble and murmur and mutter about their nominations as much as possible. It will do their political opponents so much good. We Democrats were drafted and hunted and disfranchised and mobbed and now the negro is to be made our equal and we degraded to the level of the negro. Of course we ought quarrel now, just to let radicals get more power and scourge us still more severely. Adversity makes philosophers of some people. It ought to have its lesson for disappointed Democrats.

SOME of the radical politicians are very busy trying to stir up dissensions among the Democrats. They talk up "independent" candidates quite eloquently. They want a monkey to pull their chestnuts out of the fire. We put Democrats on their guard against these tricksters. Whenever a man says 'independent candidate" to you, set him down as an emissary of these fellows.

"NO POLICY."

Grant, in his letter accepting the radical nomination for the Presidency, declared that he would have "no policy." He is fulfilling his promise in this regard. He has no financial policy. He has no foreign policy.—He has no "reconstruction" policy. His Secretary of the Treasury is at his wits end trying to find a policy. But the more he seeks a clew by which to escape from the financial labyrinth, the more he becomes entangled in its mazes. And the country becomes entangled with him. Gold goes up. Greenbacks depreciate.—Hard times, dull times, come. The farmer finds no market for his grain. The merchant sells but few goods. The mechanic is at a loss for a purchaser of the products of his skill. The laborer is thrown out of employment or works for reduced wages. The wheels of business stand still. Then the Secretary of State gives instructions to Minister Motley, but nobody knows what they are. The United States Senate "breathes out threatenings and slaughter" against England, and the fiery fulminations of Sumner and Chandler shake the continent to its foundations. War is the word, but Grant accepts an invitation to the "National Peace Jubilee" at Boston, and the oracles give out the pacific intentions of the administration. "Grim visaged war hath smooth'd his wrinkled front."—Thus peace or war with England is to remain an open question, for Grant has "no policy" on the subject. Next come committees from the Southern states who represent to Grant that the condition of these states is thus or so, and these are followed by other committees who contradict the statements of those who preceded them. The President had promised the first to do certain things, but after hearing the last, he is in doubt whether he will keep his promises or not. Like a certain Justice of the Peace of whom we have heard, he could decide the case very easily when but one side of it was before him, but when both sides were presented to him he was exceedingly puzzled. A cabinet council is called. The result is that Grant's pledges are repudiated, for, you see, he has "no policy." And in this wise the Ship of State flounders on, without rudder or compass, her master trusting blindly to luck to carry her safely through the storms and breakers which threaten. Much ado was made about the policy of Andrew Johnson; perhaps it will yet be found that it is better to have a President whose administration of the affairs of government is directed by well-defined principles than one who has "no policy," and so little principle that he cannot ever keep his pledge of honor.

THE question now at issue before the people of Pennsylvania is not merely whether twenty thousand negro ballots be added to the radical vote in this State, but whether the ignorant field hands of Georgia, Alabama and Louisiana shall make laws for the intelligent white men of Pennsylvania, The question is whether the ignorant and brutal Voodoo worshippers of the South, ignorant of the ballot, and careless of its privileges, driven to the polls in herds by carpet bag masters, whom they have exchanged for their overseers, shall dictate constitutions and forms of government for Pennsylvanians. It is not so much whether negroes shall vote in Pennsylvania, as it is whether the voice of her citizens shall by overwhelmed and their constitution abrogated by hurling the ignorant blacks of the reconstructed States on the ballot box, at the bidding of their radical owners. If republican government can stand this shock, in conjunction with the corruption of the legislature, who shall say that our political institutions cannot defy every assault? One of the schemes by which the enemies of free government seek its destruction is to degrade the ballot by putting it into the hands of ignorant negroes, who are at the mercy of the designing and corrupt. When the people shall grow weary of the evils thus engendered, the radical enemies of the republic will be ready to proclaim the failure of popular government. Those who seek to destroy the Constitution of Pennsylvania by invoking the aid of the Negroes of the South, are not the friends of equal suffrage, but they are the enemies of free government.

WE call attention to the prospectus for the GAZETTE for the campaign, printed elsewhere in this issue. The terms are so low that our friends throughout the country will find no difficulty in giving the paper a wide circulation among those who are at present without it. There are signs of a fierce battle in this county at the coming election. Every Democrat is expected to be at his post and hundreds of recruits can and will be made from the other side. But thorough, vigorous, and effective work must be done, and in this the GAZETTE will do its usual part.

Sixteen officers belonging to Palacio's rebel army have been shot by the Mexican General Parra, in Sonora.

A CHEATED PEOPLE.

Is Grant's Secretary of the Treasury, Boutwell, an honest man? pertinently asks the *N. Y. Day Book*. If he is, he is a very foolish one, for in making up a statement of the present public debt, he neglects to add the interest to the principal, a very considerable item, and which is just as much a part of the public indebtedness as the principal itself. The actual debt on the first of March was:

Principal	$2,618,541,382 04
Interest	45,491,506 08
Total	$2,665,032,888 12
Cash in Treasury	116,235,407 03
Actual debt	$2,548,797,391 09
Debt on the 1st of April	2,525,196,461 74
Increase	$23,600,029 35

Now in Secretary Boutwell's report, he deceives the public to the amount of *thirty millions of dollars*. Or, shall we charitably say that he was himself deceived? If so, then he is an unfit man for his place. And if his misleading the public is intentional, he is certainly unfit for the post. There is but one of the two conclusions to which we must come—either he is a fool or a rascal. But this system of deceiving the people in relation to the public indebtedness has been persistently practiced ever since the Mongrel party came into power. Every year without exception there has been immense disparity between the appropriations and the actual expenses, and this difference has always been made up by new appropriations in the gentle name of *deficiency* bills. There has always been a head and a tail to these appropriations, and the tail is sometimes the largest. But the people are all the time cheated, with a public reference to the head only. That is whenever the expenses of the government have been referred to, only the figures of the appropriations are given, while those of the enormous deficiencies are carefully left in the backgrounds. And this "honest" Secretary Boutwell begins the administration of the same system of cheating which has marked the whole career of the party. His very first act is an attempt to hide $30,000,000 of interest, so as to make the debt just so much smaller than it actually is. And, that the people may be the more thoroughly fooled, Congress cunningly reduced the appropriations thirty millions below Boutwell's estimates. Now, watch for the end of the fiscal year, and see repeated the old dodge of bringing up the rear of this financial 'tomfoolery" with a prodigious defiency bill. And these bold rogues treat the people as though they were fools. They have been able to do this as through the discipline of the party rule. Their papers and their leaders unblushingly lie to the people; and then all the throng of the party stoutly swear to the *truth* of the falsehood. It has been held even disloyal" not to lie for the party. Nay to tell the truth about any measure has been to "sympathize with rebellion" for the last eight years. Every man who has not either been a fool or a scoundrel has had to confront this sort of persecution. And the outlook is not much better for the immediate future. A dolt sits in the Presidential chair, surrounded with a cabinet of rogues or fanatics, all backed by a Congress infamous enough to shame the devil himself. O, for a few active, brave and honest men to rush to the front now, and say to the disgusted, and almost discouraged, massses—"Come on, let us have an end to all this!" The awakening of the people will be like the shock of earthquakes, whenever the true issues are boldly put before them.

Horace Greeley's Advice to the Radicals of West Virginia.

NEW YORK TRIBUNE,
NEW YORK, Nov. 18, 1868.

My Dear Sir: I have yours of the 16th. Its leading positions have long been understood and appreciated in this quarter. Now hear *me*.

Every year one thousand of your rebels die, and one thousand or more of their sons become of age. You can't disfranchise THEM. You have now five thousand majority. Six years at furthest will convert this into a rebel majority of one thousand. Then the rebels will be enfranchised in spite of you, and the black will be left underfoot—and you under-estimate these at two thousand.

Go your own way, and see if the rebels don't have you underfoot in *less* than six years.

I speak from a wide experience when I tell you that your house is built on the sand. It cannot stand.—Every year will see the passions of the war cool and the demand for amnesty strengthened. *Now* you can amnesty the rebels. Soon the question will be, Shall they amnesty *you?* Look at Kentucky and Maryland, and read your certain fate in theirs.

Yours, HORACE GREELEY.

To the Editor of the Wheeling Intelligencer.

Greeley is about right. In a few years it will be a question whether the Radicals shall be amnestied in the South.

Some twenty or thirty persons have been murdered, and half as many women and children have been carried off in Western Kansas, during the past week by Indian guerilla bands,

Many Mexican States have refused to execute the law of their Congress for the suppression of party demonstrations.

BRIEF NEWS ITEMS.

The Wheeling *Register* has published an extra filled with the details of the hailstorm on Friday afternoon last, in that city. According to the account given it was certainly one of the most severe storms that has ever occurred. The paper computes the loss at $250,000 in property, and gives a list of accidents resulting from its fierceness. It tells of one man who was so terribly cut about the face and head that his life is despaired of, another who was caught in the storm and pounded nearly into a jelly. His life is also in great jeopardy. One man was on an island near the city holding his horse when an immense hail struck his horse and another the man, at the same time, knocking them both down, the horse falling upon him, breaking his collar bone. Another person put his hands up to protect it, when they were cut by the hail so badly that he cannot use them. The train on the Hempfield railroad was stopped by the storm. The loss to the vineyards cannot be repaired for years. Hail stones fell larger than a man's fist, one weighing three-fourths of a pound.

In Sheridan, Kansas, on the 27th ultimo, Charles Davis went into Enoch Reynold's dance-house, and, without any words, shot Reynolds, slightly wounding him in the side. Davis was taken into custody by the committee and while the case was being examined Reynolds, walked in. Going up to Davis, he said, "Suppose I should act the coward, as you did, and shoot you?" at the same time drawing his pistol and shooting Davis in the head. The next morning Reynolds was found hanging by the neck. Davis was not expected to live.

Mrs. Eliza Ogden, aged forty years died last week at her residence near Manayunk, of suffocation from excessive corpulence. At the time of her death her weight wrs 600 pounds. When she died, which was suddenly, she fell to the floor and it required six stout men to lift her. It required ten men to remove her to the ground floor. Her coffin was six feet four inches long, three feet wide over the breart and two feet one inch deep.

W. R. Bramburg, was shot and killed on the 25th ult., on the road from Tuscalusa, Ala. It appears that Bramburg had a wife and several children, whom he had deserted. He made the acquaintance of a respectable young girl, only fifteen years old, succeeded in seducing her, and was carrying her off when her friends, who set out in pursuit of him, overtook, and as he showed fight, shot him.

Some two weeks since, Jerome E. Burns, of Chillicothe, Ill., recieved a note warning him to leave town immediately. Not heeding the warning he died suddenly, and was buried by his family two hours thereafter. His body has been disinterred, and presents evidence of having been poisoned. Suspicion rests upon his family.

A few weeks since a little child in St. Joseph Mo., was bitten by rats in the arm. Although the wound was slight and soon healed, the arm has since become diseased, and fears are entertained that it will have to be amputated. Some two years since two children died in St. Joseph from virus poison caused by being bitten by rats.

About midnight on Saturday last three unknown men, two whites and a negro, came to the residence of a harmless, aged, and infirm man named John Futhey, living in Grenada, Miss., and obtaining admission, dragged him from his bed and whipped him to death with rawhides.

The decrease of the public debt, according to the official statement, turns out greater than we expected. Since March 1st the decrease has amounted to more than twenty millions; and during the month of May it footed up $13,384,777,97.

A strong party of Cheyennes surprised an unprotected settlement one hundred and fifty miles from Topeka, Shawnee county, Kansas, Sunday morning, and massacred thirteen men, women and children, after committing other horrible outrages.

Elliot's Mills, several adjoining industrial establishments in Woonsocket, R. I., were destroyed by fire Wednesday night, involving a heavy loss to the owners, and throwing two hundred hands out of employment.

A new conundrum has been propounded to the Internal Revenue Bureau: Can Pennsylvenia authorize the manufacture of segars by convict laborers? The Bureau has not yet replied but doesn't give it up.

CUBA.

The Army of the New Republic Increased by Five Thousand Americans.

The New York *Sun* of the 1st inst., says: The friends of Cuba are using every precaution to evade the little host of Spanish spies who have been employed to watch their movements and report them at a certain office on Broadway, and it is matter of sincere congratulation that they kept their operations a mystery until publicity ceased to be injurous to their cause. They have according to a report presented yesterday by the agents of the Spanish Government sent thirteen expeditions to Cuba, all of which have been safely landed. The largest number of men on one of these expeditions was 450 and the smallest 30.

The materials of war shipped in these vessels including six batteries of artillery and an immense supply of Spencer rifles; and the whole number of men which they carried is estimated at 5,000. This full brigade of veterans—the gift of the American people to Cuba—is to day part of the army of Cespedes, and we may soon expect to hear from them in a desperate if not decisive battle with the Spaniards.

The above facts, which come from a Spanish source, coroborated by one of Cuban patriots who estimates, however, the accession to Cespedes' army from the United States at eight thousand men. Seven of the expeditions sailed from New York, three from Baltimore and three from Florida.

It is said that all the volunteers who left New York for Cuba are in the cavalry arm of the service. The use of sabres has been discontinued, the Spencer rifle being deemed more effective.

Another expedition is on foot and the veterans, of which it will be mainly composed, will consist of ex-officers of the United States army.

SPECIAL NOTICES.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills, will cure Consumption, Liver Complaint, and Dyspepsia, if taken according to directions They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catsarh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fete. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr. Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5 Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

'COSTARS' BUCKTHORN SALVE

Is the most extraordinary SALVE ever known. Its power of Soothing and Healing for all Cuts, Burns, Bruises, Sores, Ulcers, Chapped Hands and Skin, for Sore Nipples, for Piles, &c., &c—is without a parallel. One person says of it, 'I would not be without a Box in my House, if it cost $5.00, or I had to travel all the way to New York."

TO CONSUMPTIVES.—The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address REV EDWARD A. WILSON,
Williamsburg, Kings County, New York.

TWO FARMS AT PRIVATE SALE.

NOW IS THE TIME TO BUY CHEAP REAL ESTATE.

A FARM IN MORRISON'S COVE.

A SPLENDID FARM WITHIN TWO MILES OF BEDFORD.

The subscriber will sell at private sale, on very very reasonable terms, and at reduced prices, the following described, very valuable real estate, viz:

A TRACT OF LAND situated in Morrison's Cove, about one mile from Lafayettsville, and four miles from Woodberry, in Middle Woodberry twp., containing 102 acres, more or less, about 45 acres cleared and under fence, with one and a half story log house, log barn, blacksmith shop and other outbuildings, adjoining lands of Jackson Stuckey on the east, Christ. Kochenderfer on the north, John Kengy on the west, and Ignatius Brant's heirs on the south This can be made one of the neatest and most pleasant little farms in the Cove with very little expense. There is an abundance of water, plenty of fruit and splendid timber upon it—all that is necessary to make it desirable.

ALSO,

A MOST EXCELLENT TRACT OF LIME STONE AND RIVER BOTTOM LAND, within two miles of Bedford, containing 228 acres, about 150 acres of which are cleared and in a high state of cultivation and the balance well timbered. There are excellent new building erected thereon with a well of never failing water at the door. There are two orchards of choice fruit upon it. 75 acres of meadow, (River Bottom) can be cultivated with trifling expense. The upland is in a good state of cultivation, well set with clover and under good fence. There is sufficient timber upon it to pay for the farm several times if thrown into the Bedford market. Cool—the weather o' nights.

Going up—the court house steps.

Coming down—flour. Let 'er come.

Juliana street has the Grecian Bend. The "city fathers" ought to take it out.

The Messrs. Hartley are erecting a new stack at the Crystal Mills.

Fourth of July is coming. Will Bedford celebrate?

Hon. Jeremiah S. Black had his arm crushed by a railway accident near Louisville, Kentucky, recently.

Our lawyers are doing a very sneaking business at the court house just now. They all slip in at the back door.

John T. Richards, Esq., late member of the House, is announced as a candidate for Senatorial honors, in this district. Where's Boon?

Andrew Bulger—not *Furry* as published in last week's GAZETTE—committed suicide in S. Woodberry. Mr. Furry was no doubt surprised to learn that he had committed so rash an act.

A soldier stands a poor chance in the Democratic ranks.—*Inquirer.*

But he is all right in the "Republican" ranks, especially if he fought on "the other side." For instance, Long-street, Crowe and other colored individuals.

SEVERE STORM.—A severe storm of hail and rain visited a portion of Fulton last Monday week. Barns and trees were blown down, horses killed windows smashed and the crops, in the track of the storm, were completely destroyed.

CHILD LOST.—A daughter of James Staley, about eight years of age, was lost in the Mountains near Mercersburg on the 20th ult. Up to this time no trace of the lost one has been discovered, althongh the mountains have been scoured for miles around by crowds of people.

Horse thieves are still plying their vocation in Fulton county. Last week two more fine horses were carried away, one from John Fore of Todd tp. and the other from Henry Wilson of Dublin. An attempt was made to enter the barn of J. M. Sloan of Todd tp., but the rascal was discovered before he had accomplished his pilfering purpose.

ARRANGE BANK PAPER.—The Fourth of July falling on Sunday this year, the 5th is by statute designated a legal holiday. Paper falling due on the 5th is therefore payable the 6th, and paper falling due the 4th must be paid the 3d. Some embarrassment may be saved to business men by noting this fact.

TRY IT.—A cup of coffee is a sure barometer, if you allow the sugar to drop to the bottom of a cup and watch the bubbles arise without disturbing the coffee. If the bubbles collect in the middle, the weather will be fine, if they adhere to the cup, forming a ring, it will be rainy, and if the bubbles separate without assuming any fixed position changeable weather may be expected. Try it.

DEATH OF THE "OLDEST INHABITANT."—Mrs. Mary Amick who died in Monroe township, on Saturday the 29th ult., was no doubt the oldest inhabitant of this county. She was born in Loudoun county, Virginia, in October, A. D. 1762, and would have been *one hundred and seven years* old in October next. Deceased was a member of the Lutheran church of which denomination she was a regular communicant for a period of *eighty five years.*

CORRECTION.—An error has appeared in the Statement of Receipts and Expenditures of Bedford borough, which was made by the omission of the Auditors to give the Treasurer credit for items amounting to $1,228.11. The corrected statement was handed to us last week, but we overlooked it. This week the account appears as it should be. Justice to all concerned demands this explanation, otherwise a reflection might be made on the Treasurer, Mr. Rush, than whom no more honest or correct officer can be found.

FASHIONABLE WEDDING.—Mr. Espy L. Anderson, late of Bedford Springs, and Miss Rebecca Johns of this city, were married by Rev. Dr. Colton, in the P. E. Church, at 9 o'clock, P. M., last Thursday evening.

This marriage excited a good deal of interest and a large number of persons attended the church to witness the ceremony. There were six gentlemen and six lady attendants. The bride was dressed in white silk with illusion over.—*Mountain City Times.*

A WORD TO THE LADIES.—In one of our exchanges we find the following directions for preserving boquets, in their original freshness and beauty for a long time.

"First sprinkle it lightly with fresh water. Then put it in a vessel containing soap-suds; this will nutrify the roots keeping the flowers as bright as new. Take the boquet out of the suds every morning, and lay it side-ways the stalk entering first into the water; keep it there a minute or two, then take it out and sprinkle the flowers lightly by the hand with water. Replace it in the soap-suds and it will bloom as fresh as when gathered. The soap-suds need changing every three or four days. By observing these rules strictly, a boquet can be kept beautiful for at least a month, and will last longer in a very passable state."

BARNES BROUGHT BACK.—R. Barnes, a dusky American citizen, late a member of the House at Allegheny, has announced his intention to "run over the track" again. He thinks the thieves at Allegheny are fully as respectable as the thieves at Harrisburg, hence he longs for the soup bowls of the noble instititution beyond the "city of smoke." Barnes has been there and tasted the sweets of solitary life—that isolated nook where pugnacious politicians enter not and where the "bredren" are not tempted by the bewitching inducements of the fifteenth Amendment. He would rather view the *grateness* of the country from another standpoint. To make his election sure. Barnes proceeds to the Mills and appropriates various and sundry articles to his use, without the consent of the owners, and contrary to the Acts of Assembly in such case made and provided.

Flour he taketh—for the soul and body must be kept together—and the sacks thereof he converteth into nether garments.

To show what a *bore* he has determined to be to the community, he gobbleth a two-inch auger.

He saw a saw and the owner saw it no more till justice dragged it forth.

His appreciation of the "flight of time" was beautifully illustrated in that he and a watch disappeared suddenly together one morning.

All these things were taken at the Mills, yet not one mill did he leave to recompense the owners thereof.

Yet he pretended to act "on the square," for that article, too, was found in his possession.

Barnes has grievously sinned in the light of the Freedmen's Bureau. He is now reflecting on the weakness of his race, in the county jail.

For the Bedford Gazette.

A FEW WORDS ABOUT PAINT.—In China when a man is convicted of stealing they paint his house black. Is there a similar rule in operation here, and has *Bedford township* been convicted of stealing? If not, why are the new School Houses of the township painted black, or what is worse a mongrel shade between brown and black! Did anybody in the world ever see a more detestable color than that which distigures the fine new School House near Chenoweth's?" Burns styled the tooth-ache "the hell of all diseases." What the tooth-ache is to all other diseases, the color of this school house is to all other colors.

There is a nice new school house out near Jacob Fetter's, four miles north east of town, which had not yet been painted when I saw it last, a couple of weeks ago. I hope the Directors, or the contractor, or the painter, or whoever may have the matter in hand, will see that this building gets a coat of paint whose color will not stand as a reproach upon the taste of the people of the towship.

As samples of well-selected color I would refer to the Mengel House and to Judge Hartley's barn in Snake Spring township. Can't our School Directors or the contractors who build our school houses, display like good taste with Hartley apd Mengel? Our School Houses should present a cheerful and tasteful appearance, and not (like the one near Chenoweth's) stand like dirty scabs on the beautiful face of nature. PAINT BRUSH.

SKETCHES OF REMARKABLE CHARACTERS.

BLOODY RUN, June 1st, 1869.

EDITORS GAZETTE:—Messieurs: Since it has become the custom of many writers to ventilate brief "biographies" of "our members of the bar," through the columns of one of the "organs" of the county, I have ventured (with trembling) to pen a few brief sketches of "well-known characters," hoping that your readers may feel that *deep interest* in them which we all do in the subjects of the aforementioned screeds. My remarks shall not be confined to any particular profession, and my characters will probably be recognized by nearly every reader of your valuable sheet. To begin with, we will consider, briefly, the career of

HANS VON SCHPICKLEBECK-"*Tramper,*"

who, at the ripe old age of fifty-five, don't "versteh Inglis,'" but ekes out a comfortable livelihood by passing through various parts of the world and making observations. Hans don't "trink Berliner 'weiss-bier," oh, no! but when the night comes on, seeks out some deserted tenement, where he builds his fire and leisurely composes himself for his "nacht-lage." Morning comes and discovers him accidentally burned to such an extent that he is obliged to be the "borough's guest" for two or three months, when he goeth on his way rejoicing. Mr. Von S——is a promising citizen, and we understaud intends seeking the nomination for Prothonotary.

GIUSEPPE BATHISTA—"*Musician*"—is a well-known and admired character. Being of a very charitable disposition, his concerts are given "free of charge;" but a minute specimen of humanity (?) almost invariably accompanies him, and succeeds in increasing his master's store of pennies, by his winning ways. The admiring crowd which surrounds him, listen to his "melojus stranes" with open mouths and "auribus erectis." The most singular thing connected with Mr. B——'s melody, is the fact that it is all contained in a small cubical box, and requires but one crank to produce many tunes. We understand that he carries on a thriving business, but his stay, in one locality, is limited according to public patronage.

SMIGGY MCGLURAL—*the Pugilist,* is a most eloquent debater, although his argument is nearly always of the "knock-down" order. He is a graduate of the Heenan and Sayers" school, and although somewhat averse to forensic pleadings, is yet a "re'ainer at the bar," of which he is a liberal patron. We do not know whether Mr. McG—— will ever attain a very high position in the political world, but hope that if he ever does "we may be there to see."

Other characters will be duly noticed hereafter, as they rise or fall in public esteem. Yours with tremor,

ICONOCLAST.

A distinguished Methodist Minister and prominent Temperance Lecturer once remarked that go where he would, from one end of the country to the other, he hardly ever failed to find PLANTATION BITTTRS, and while he condemned the practice of using these Bitters too freely, he could not conscientiously say that he would discard them from the side-board, for he had himself experienced beneficial results from their use, and that, from a long and close observation, he was convinced that when used moderately, and as a medicine exclusively, they were all that was recommended. At the same time he warned his hearers not to pull the cork too often, for they were far too pleasant a tonic to trifle with.

COLBURN'S PATENT

RED JACKET AXE.

Is better than our regular shaped Axes for these reasons. First—It cuts deeper. Second—It don't stick in the Wood. Third—It does not jar the hand. Fourth—No time is wasted in taking the Axe out of the cut. Fifth—With the same labor you will do one-third more work than with regular Axes. Red paint has nothing to do with the good qualities of this Axe, for all our Axes are painted red. If your hardware store does not keep our goods, we will gladly answer inquiries or fill your orders direct, or give you the name of the nearest dealer who keeps our Axes.

READ! READ!! READ!!! MIDDLETON'S *WONDERFUL PAIN CURE*

A sure remedy for Rheumatism, Neuralgia, Lumbago, Growing Pains, Sprains, Bruises, Stiffnes, of the Joints and all similar diseases.

This wonderful remedy is composed entirely of vegetable ingredients. There are no injurious substances used in its manufacture.

For assurance of its excellent properties, read the following certificates:

BEDFORD, May 8, 1869.

I take great pleasure in giving my testimony to the value of "Middleton's Wonderful Pain Cure." I have been a martyr to Rheumatism For two months previous to Feb. 25th, last, I was suffering intensely with pain so severe, that during all that time I had not one night of comfortable sleep. I could not put my hands to my face, could not comb my own hair, nor feed myself; but after having the Pain Cure applied once, I found relief enough to give me comfortable sleep, and with its steady use, I continued to get better, and now at the end of ten weeks from its first application, I have comparatively free use of my hands, sleep well and can attend to business. It has done me more good than all other medicines I have ever used put together, and I cheerfully give this certificate of its value.
ELI M. FISHER.

BEDFORD, April 14, 1869.

Mr. W. W. Middleton,
This is to certify that I was taken with Rheumatism, in my right shoulder, on the evening of the 8th inst., so that I was unable to raise my hand to my face. I got some of your Pain Cure and applied it twice, and was entirely relieved. I would recommend to every one who suffers with Rheumatism to give it a trial and be cured.
Yours &c., A. F. MILLER.

BEDFORD, May 17, 1869.

Mr. Middleton,
DEAR SIR:—I have used several bottles of your medicine in my family, and find it to be all you claim for it. Yours, truly,
JOHN HAFER.

BEDFORD, May 13, 1869.

This is to certify that I have used "Middleton's Pain Cure," for Rheumatism, and was very much benefited by it. JOHN HARRIS.

BEDFORD, May 18, 1869

This is to certify that I have used Middleton's Liniment, for the Rheumatism which I had in my right shoulder so bad that I could not get my hand to my head without great pain, and after a few applications was entirely relieved.
L. F. DART.

BEDFORD, May 1, 1869.

Mr Middleton,
Dear Sir:—Mrs. Bowser was in much suffering for some four weeks with Rheumatism, and got some of your Pain Cure, and the first night I applied it it eased the pain; and after keeping on using it for two weeks, she was restored to health. I feel it to be my duty, as it is a pleasure, to write this recommendation for the benefit of others. JACOB BOWSER.

BEDFORD, May 16 1869.

Mr W. W. Middleton:
Sir—I procured a bottle of your Liniment for Rheumatism, and it gives me great pleasure in saying that after using it for two days, my rheumatism was completely relieved My sister was suffering, at the same time, with Inflamatory Rheumatism in her right hand and wrist—after using it for several days she was relieved. I consider it the best remedy I ever heard of.
JOHN KEEFE

BEDFORD, May 24, 1869

This is to certify that I have used one bottle of Middleton's Liniment for Rheumatism, and think it a good cure, and would recommend it to all persons that are afflicted with the above disease.
AUGUSTUS CARVER.

BEDFORD, May 26, 1869.

Mr. Middleton:
Sir—I procured one bottle of your medicine and used one-half of it for Rheumatism, which effected a permanent cure up to this time. I cannot hesitate in saying that it is the best remedy I ever used. A. B. CARN.

This excellent PAIN CURE is prepared only by W. W. MIDDLETON, Bedford, Pa., to whom all orders for the medicine should be addressed.

WATERSIDE WOOLEN FACTORY!—30,000 LBS. WOOL WANTED! The undersigned having leased the Large New Woolen Factory, at Waterside, for a number of years, respectfully inform the old customers of the Factory and the public generally, that they will need at least the above amount of wool. They have on hand a large lot of Cloths, Cassimeres, Tweeds, Satinetts, Jeans, Blankets, Coverlets, Flannel, &c., which they will exchange for wool, as has been the custom heretofore. Carpets will be made to order, at all times. Stocking yarn of all kinds always on hand. Our Peddler, Thomas Border, will call on all the old customers, and the public generally, in due time, for the purpose of exchanging goods for wool. The highest market price will be paid for wool in cash.

LET EVERY MAN, WOMAN AND CHILD READ THIS!

Their own interests are at stake in this matter. Everybody has suffered so much from the accursed CREDIT SYSTEM, if system it can be called, that I intend to offer to everybody a panacea for the evil in the future.

On and after the first day of June, 1869, I will sell goods EXCLUSIVELY FOR CASH OR PRODUCE. No doubt some customers may be lost to me, but I flatter myself that it will be only those from whom I cannot collect present accounts.

All goods will be sold at about one-half the profit now paid by consumers. The people often complain of Bedford prices being higher than elsewhere, and it is doubtless true, to some extent, for the reason that good customers have had to pay for others' goods with an additional profit on their own.

Let an intelligent community sustain me in this enterprise and they WILL SAVE FROM TEN TO FIFTEEN PER CENT. ON EVERYTHING THEY CONSUME.
may14m3 H. F. IRVINE.

NOTICE.—All accounts not settled by the first day of June, 1869, either by cash or note, will be put in the hands of an officer for collection. Friends will please take notice, and by so doing will save trouble and costs.

Sewing Machines.

$25! $25!

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,
General Ag't,

N. B.—For the benefit of our Agents we have arranged with parties who have goods suitable for Sewing Machine Agents to sell. We will send BOOK OF SAMPLES and full particulars on receipt of one red stamp. Address G. V. N. ANDREWS, General Agent, Detroit, Mich. nov6y1

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. NATURE'S GREAT RESTORER.

SCHEETZ'S
CELEBRATED
BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

THE GREAT

ZINGARI BITTERS.

A Safe Blood Purifier,
A Splendi Tonic,
A Pleasant Beverage,
A CERTAIN CURE
AND
PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.
THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—
For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For LIVER COMPLAINT and its various symptoms, BILIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
For DYSENTERY or DIARRHŒA, but one mild dose is generally required.
For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.
For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.
For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.
As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*
Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*
MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,
FOR PURIFYING THE OOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.
Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.
Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.
